Redemption Criteria:

Certificate of Deposits Redemption

Local currency redemption:

For CD's issued in EGP the eligibility of full or partial breakage will be after 6 months from the value date and before CD maturity. Interest on the withdrawn amount will be paid as per the announced rate of the Redemption rule.

Example: A customer booked a 3-year CD with quarterly interest payout amounting EGP 50,000 on 3-1-2021 and wants to redeem within the 14th month, thus as he/she started his/her 2nd year a penalty of 5% will be applied on actual interest rate which was 15.50% paid quarterly reduced to 10.50%. The customer has already received 4 times interest from his first year amounting to EGP 7,750, meaning that after reducing the interest he/she will cover the amounts withdrawn from the principal CD amount.

The customer has to pay to the bank an amount of EGP 2,062.5; which means he/she will receive the CD amounting to EGP 47,937.5 instead of EGP 50,000 to cover the amounts previously received before redemption penalty.
